DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Burrows on October 12, 2007.

The application has been amended as follows:

In claim 1, line 14, insert —of the complex—after “a second component”.

In claim 28, line 17, insert —of the complex—after “a second component”.

In claim 31, line 18, insert —of the complex—after “a second component”.

Allowable Subject Matter

Claims 1-35 are allowed.

The following is an examiner's statement of reasons for allowance.

Pursuant to the interview of October 2, 2007, Examiner agrees that Hutchens only discloses binding of an analyte, even though it is disclosed as being a biological molecule including a biological fragment, that is in the initial sample, and then detection of that same analyte, rather than binding of a *complex* and

Art Unit: 1641

detection of at least one *fragment* of that complex *after it is eluted off* a substrate.

A further search of the art does not show that the prior art teach or suggest binding of a complex that is immobilized by a biospecific affinity molecule that is not a nucleic acid, and detection of fragment(s) of that complex as they are eluted off a substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
